

SULZER IS IMPEACHED BY NEW YORK ASSEMBLY IN SESSION ALL NIGHT

DECISIVE VOTE TAKEN SHORTLY AFTER FIVE O'CLOCK THIS MORNING AFTER TWELVE HOUR FIGHT.

WIFE'S EFFORTS FAIL

Confession of Mrs. Sulzer That She Engineered Wall Street Speculations Prove Unavailing—Victory for Tammany.

Albany, N. Y., Aug. 12.—Governor William Sulzer was impeached at 5:16 this morning by the democratic majority in the assembly of the New York legislature by a vote of 79 to 45 after an all night session and after the governor's wife had made an eleventh hour effort to save him at the risk of her own reputation.

Organization leaders who had spared for time all night in the fear that the progress of the impeachment would be wrecked by a lack of votes, welcomed newcomers to the senate chamber summoned from New York in the early morning hours and assured of victory by their presence started a rapid fire legislation which resulted in the passing of the impeachment resolution.

Embodiment of Fawcett's Findings.

Long articles of impeachment embodied the findings of the Fawcett investigation committee in substance lay ready for presentation on the desk of Democratic Leader Aaron Levy.

Hours before the organization tested its impeachment resolution to a roll call with the aid of this resolution members of the committee headed by Mr. Levy made ready to prepare impeachment articles.

Mr. Levy and his associates retired to reappear within an hour and sent the articles to the speaker's desk with the resolution that they be adopted.

Report to Senate.

A roll call showed the adoption of the articles by a vote of 79 to 45. A committee was appointed to present the articles to the senate scheduled for eleven this morning.

It was explained to the assembly by the majority leaders that with the presentation of the articles of impeachment William Sulzer would immediately cease to be governor of New York and Martin H. Glynn, lieutenant governor, would assume his office.

Mr. Sulzer's lawyers, however, entertained the view that after the adoption of the articles of impeachment the assembly would pass a resolution annulling the impeachment and conduct the impeachment proceedings on behalf of the lower house. The managers are under the chairmanship of Assembly Manager Levy and include five other New York city democrats.

Pass Bills Over Veto.

Thereafter under the veto of unfinished business the assembly took up the consideration of several bills passed by the present legislature and vetoed by the governor. With a roll call that moved fifty and without his first of the bills was passed over the governor's veto.

Many members who had been floundering in their seats during the tedious hours of the long debate, others who were buoyed up no longer by the excitement of the impeachment proceedings, leaned back in their chairs, closed their eyes and by the time the first bill had been passed there were audible sounds of deep and labored breathing in some of the members' chests.

Speaker Smith leaned forward and swept his eyes over the rows of men with their heads on their bosoms and their eyes closed.

Sleepers Are Awakened.

"A number of the members I take it are asleep in their chairs," he

thundered, bringing his gavel down with a resounding thump on his desk. "Members will please respond when their names are called."

More sounds of the gavel on the desk aroused the sleepers momentarily and the assembly took another bill under consideration which Governor Sulzer had vetoed. With this out of the way the assembly adjourned at 7:30 to meet again at 11 this morning.

Two hundred spectators were among the throng that surged in overwhelming numbers to the capitol last night and walked out with the legislators. They had stood up all night to hear the governor impeached. The heaviest stand in the capitol, each armed, each walked out, leaving the assembly chamber in solitude.

Sulzer Knew Results.

In the executive mansion where Mrs. Sulzer last night made what her friends call her "confession" to save her husband, Governor Sulzer sat up all night in sight of the brightly lighted chamber to private walk away. There were no signs of life at the governor's home when the assembly adjourned.

Worn by long waiting the governor went to bed without waiting to be told the news. "The governor knew pretty well what would be the result," was the only word from the executive mansion.

The governor had left orders that he was not to be disturbed under any circumstances. In the light of the resolution contained in Mrs. Sulzer's declaration to Senator Palmer yesterday afternoon Governor Sulzer's friends are inclined today to view the order which confronts him with considerable less apprehension.

Mrs. Sulzer's Confession.

By the assertion of Mrs. Sulzer that she diverted part of the campaign contributions to private purposes without his knowledge and used them to purchase stock in Wall Street, she has shown the articles of impeachment of many of the terrors, it is deemed. Governor Sulzer consented to permit the declaration of Mrs. Sulzer to become public late last night only when he found he could not prevent it and that it lived as a rumor on the lips of every member of the assembly in the city, close friends of both Governor and Mrs. Sulzer asserted today.

The Impeachment.

The articles of impeachment against Governor Sulzer as passed by the lower house of the legislature this morning made a document of over 4,000 words. They are introduced by the formidable heading "Articles Exhibited by the Assembly of the State of New York in the Name of Themselves and of all the People of the State of New York Against William Sulzer, Governor of Said State in Maintaining the Impeachment Against Him for Willful and Corrupt Conduct in Said Office and for High Crimes and Misdemeanors."

Eight Articles.

The articles, eight in number, charged the governor with violating the penal laws of the state not only in connection with the filing of an improper and innocent account of his campaign expenses and diverting campaign contributions to the purchase of stocks, but also in connection with his alleged efforts to prevent witnesses from testifying before the Fawcett investigating committee. He is also charged with attempting to manipulate the stock market by attacks on the exchange.

Mrs. Sulzer.

Mrs. Sulzer must take the witness stand in her husband's behalf before the court of impeachment, tell her story in detail and submit to examination by hostile lawyers or take the hazard that the impeachers will prove their case, the governor's friends believe. Either her reputation or her husband's, those friends fear, must suffer. They say she will take the stand if she has no other choice. They add that she besought the governor a week ago to permit her to tell her story to the public.

Question Asked.

What attitude Governor Sulzer would

take in this matter as well as toward the question of vacating his office when the senate should receive the articles of impeachment brought forth wide divergences of view among his friends and opponents today.

Majority Certain.

The majority leaders were reasonably certain, they said, that he would not attempt to continue to hold office, but would recognize what they asserted was the law and give way to Lieutenant Governor Glynn, Louis Marshall, the governor's counsel is inclined as placing a different interpretation on the law.

According to the quoted expression of Mr. Marshall's views the language of the constitution is not clear on this point and Governor Sulzer would give himself the benefit of the doubt by refusing to vacate.

May Use Troops.

There has been some talk of his ordering out troops to prevent his forcible removal, in case it were contemplated that he should desire to surrender his office. Little credence, however, is placed by his friends in the report that he would resort to such extremes.

Articles of Impeachment Against Governor Sulzer adopted by the assembly early today were presented to the senate late this afternoon and received.

Lieutenant Governor Martin G. Glynn had no comment to make today concerning the impeachment proceedings. Mr. Glynn spent the morning at his summer home at Cedar Hill. He was uncertain as to whether he would come to Albany today.

Never before in the history of New York state has a governor been impeached. The nearest approach to it centered about George Clinton, the state's first chief executive in 1791. An association of the governor was convicted of irregularities in land speculation and sent to jail. This smirched Clinton's name for a time, but he was never tried, and subsequently he lived it down and served his state thereafter for years. That clause of the constitution which covers impeachment provides that if the senate and the court of appeals find the defendant guilty that judgment "shall not extend further than removal from office or disqualification to hold and enjoy any office of honor, trust or profit under the state, but the party impeached shall be liable to indictment and punishment according to law."

Martin H. Glynn, lieutenant governor, whose automatic assumption of the governorship in 1907, lawyers were not agreed upon today as a democrat widely known as editor and publisher of the Albany Times Union. He has been prominently identified with politics for fifteen years.

Only Seven Impeachments.

New York, Aug. 13.—In all the United States only seven other governors have faced impeachment proceedings. These men and the results that followed were:

Charles Robinson of Kansas, 1862, acquitted.

William Reed, Florida 1868, charges dropped.

William W. Holden, North Carolina, 1870, removed.

Powell Clayton of Arkansas, charges dropped.

Butler Nebraska, 1871, removed.

Henry C. Warmoth, Louisiana, 1872 term expired and the proceedings dropped.

Delbert Ames, Mississippi, 1875, resigned.

Woman Representatives Gather At Washington For Three Days' Council Laying Plans For Campaign.

Washington, Aug. 12.—Women voters representing four million of their sex in many states gathered today at delegates to a three days' conference of the national council of women voters. Plans will be laid for the extension of universal suffrage in states, not now extending the franchise to women, and ways and means for the prosecution of a vigorous campaign will be discussed. States represented at the opening conference included California, Colorado, Idaho, Illinois, Kansas, Oregon, Utah and Wyoming.

BOLD ROBBER PROVES DETECTIVE ON HUNT

Guard at Capital Catches Intruder Hiding in Shrubbery—Was Just Investigating.

Washington, Aug. 12.—While President Wilson was sleeping in apartment security early today, an intruder leaped the fence of the White House grounds and stealthily made his way into the direction of the presidential chambers before he was discovered. Under cover of darkness the trespasser dodging through the shrubbery of the grounds had gained the corridors of the White House before a policeman arrested him. This was all the policeman did arrest, however, for the intruder was Superintendent of Police Sylvester, who was making an investigation of the recently reduced force of White House guards. He expressed himself today as entirely satisfied with his inspection.

INSPECT ALL TRAINS TO PREVENT STRIKE

Minot Police Search Trains to Prevent Industrial Workers Causing Trouble.

Minot, N. D., Aug. 12.—Every incoming train was inspected by police today to prevent the possible influx of the Industrial Workers of the World, to aid in the battle here yesterday and last night for free speech which has been waged since last Saturday and has resulted in considerable rioting and nearly one hundred arrests. The monster meeting which the I. W. W. held last night was broken up by a downpour of rain and the leaders also are said to have been incensed by the action of the authorities in rounding up a band of fifty-nine industrial workers and marching them nine miles from the city and instructing them not to return. Local authorities claim they have the situation well in hand and that the state troops will not be needed to preserve order.

It's Team Work That Counts!

Manufacturers are absolutely dependent on retailers for the consumer sale of their goods.

Retailers must have the manufactured products—and must have consumers to use them.

Manufacturers, retailer and consumer are therefore in the golden chain of commerce that circles the world.

The retailer finds his most efficient and most economical short-cut to the consumer through advertising in the daily newspaper.

Retailers are ready to push those nationally distributed products advertised in their home newspapers—because the demand is made right here at home.

Manufacturer and retailer linked together in a definite newspaper campaign form a team that scores new records on sales totals.

Retailers are ready to impress on manufacturers the advantage of co-operative advertising in papers like The Gazette.

Merchants and manufacturers interested in local advertising for nationally distributed articles are invited to write to the Bureau of Advertising, American Newspaper Publishers' Association, World Building, New York.

WOMAN'S TEARS MELTS COURTMEN'S HEARTS

Change Sentence from Maximum Sentence to Assault and Battery Attack on Girl.

La Crosse, Wis., Aug. 12.—Woman's tears proved their efficacy in county court here yesterday. George Race, a railway employee, was up for sentence for an assault upon Cora Ostrom, a hotel maid. Race pleaded guilty and was to have been sentenced to the circuit court for sentence, it being the intention of the chief of police and district attorney to recommend the maximum sentence of 24 years provided for an attack upon a woman under 18 of previous chaste reputation. Their Mrs. Race, young bride of the prisoner, began to cry. She appealed to the court, the chief to the jury, the prosecutor, to the complaining witness. Soon Miss Ostrom's tears mingled with hers. Finally the authorities capitulated. They consented to change the sentence to 12 months in jail and Race got three months in jail and the two young women went out weeping together.

BOOST CANDIDATES FOR K. T. OFFICES

Delegations From Several States Have Favorable Positions of Senior And Junior Wardens.

Denver, Aug. 12.—The possible choice of senior and junior wardens and the city which will be fortunate enough to capture the next convalescence to be the live topics among the Knight Templars in the thirty-second annual convalescence and shared attention with the drilling of the sixteen competitive picked drill teams from the commanderies of the United States. Many Templars feel that Texas should be given the honor and some predict the election of Samuel P. Cochrane of Houston to the office of junior grand warden. Colorado is also insistent that George W. Callery, chairman of the 1913 convalescence, be the man for the office. W. H. Norris of Manchester, Iowa, is also being much talked of as the possible winner in the contest and the Michigan commandery are supporting Huston B. Coleman of Kalamazoo.

SEARCH FOR NEGRO WHO MURDERED GIRL

Poses Scour Country Near Lexington, Mo., For Black Who Committed Atrocious Crime.

Lexington, Mo., Aug. 12.—Several hundred men in motor boats on horseback and on foot today continued beating the country about Lexington, in search of Goldie Winkler, a young negro accused of attacking and murdering Estelle Potter, 13 years old, whose nude body was found in a ravine on her father's farm yesterday. About 1,000 men divided into a dozen posses kept up the search all night. A number of them this morning said the negro must have committed suicide by throwing himself into the Missouri river. Sentiment here is so strong against the negro that threats have been made to lynch him. A minister of the town assisted in organizing the posse, declaring the negro should be "hanged or burned."

Madison, Wis., Aug. 12.—If a township goes dry and later a village is organized the within town, no liquor can be sold in the village until authorized by a vote of the people in the opinion of Attorney General Owen. Alexander Wylie of Chippewa Falls.

TELLS OF FORMATION TARIFF ASSOCIATION

Henry Towne of New York Testifies Before Senate Lobby Committee—James Watson Employee.

Washington, Aug. 12.—Henry Towne of New York told the senate lobby committee about the formation of the National Tariff Commission Association of which he was once president. Martin M. Mulhall had testified that the National Association of Manufacturers was the chief factor in its organization. Towne said the Indianapolis convention led to the association. He testified that the association was formed at Indianapolis in 1909 at the convention called by Henry Reisenberg, at which 23 commercial organizations were represented. Thousands of contributors included the Manufacturers and Merchants Association of New York. Former representative James E. Watson was employed by the association in April, 1909, after he left congress. Towne testified, in explaining two \$500 drafts on the manufacturers drawn by Watson.

He said the manufacturers had promised to contribute \$1,000 and gave it in the form of two drafts. He denied that the Tariff Commission Association tried to put men on the tariff board for years. He said the commission had raised about \$30,000. Towne testified Watson was employed by the tariff association from April to June, 1909 and on cross examination said he was paid \$250 a week. "Wasn't Watson employed because he was close to the Cannon machine?" demanded Senator Reed. "I don't know about that," said Towne.

SOLDIER IS CLUBBED BY STRIKING MINERS

Striker Shot Through Leg Because He Refused to Answer Command To Halt—Two Arrested.

Calumet, Mich., Aug. 12.—Private John Kelly of Company E, Detroit, stationed at the Wolverine mine in the copper miners strike zone was clubbed by an unidentified person while on duty yesterday. He was found unconscious. Kelly is the first militia man attacked since the strike began. Late last night Valentine Ruyoch, a striker, was shot through both legs by Corporal Poel of Company E, Ionia, on guard at the Quincy mine. Ruyoch ignored the command to halt. The Calumet and Hecla Mining Company is gradually adding to its underground force and two arrests were made this morning after alleged intimidation.

JAPANESE PAPERS EXPLAIN REQUEST

Press States Japan Requested Postponement of Visit Fearing Anti-American Demonstrations.

Tokio, Japan, August 12.—The Japanese press commenting today on Japan's request to Mexico to postpone the visit of General Felix Diaz on account of the absence of the Emperor at Nikko expresses the opinion that it was feared the visit might be marred by anti-American demonstrations. It was made the basis of an anti-American demonstration. It was for this reason the visit was put off.

INCOME TAX RETURN TO SHOW INCREASE

Prof. Adams Predicts Larger Tax From Individuals and Corporations Due to State's Prosperity.

Madison, Wis., Aug. 12.—The income tax returns will show decided increases this year, according to Prof. T. S. Adams of the state tax commission. He says that both the individual and corporate returns will be in excess of the maximum amounts collected last year. In spite of the change in corporation rate of taxation made by the last session of the legislature the returns from this source will be about the same. Prof. Adams attributes this increase to the prosperity of the state last year. As the result of the work done by income tax assessors he says that Wisconsin has the best assessment of personal and real estate property of any state in the union.

FEW OF HIGHER OFFICIALS TO BE FOUND AT CAPITOL

Madison, Wis., Aug. 12.—The state capital is practically deserted today of its higher officials. Governor McGovern is on a trip to the fish hatcheries of the state, Attorney General Owen is at Malden Rock, Insurance Commissioner Ekern is at Belleville attending picnic and Secretary of State John Donald is at his farm home in Mount Horeb.

Chief Justice Winslow was the only member of the court to be found about the capitol. He was compiling some historical material. Justice Barnes, who has been here all summer, left for a motoring trip to Rhineclauder yesterday and will be gone nearly a month. A general exodus followed the closing of the legislature last Saturday.

MADISON IS REPRESENTED AT Y. W. C. A. CONFERENCE

Madison, Wis., Aug. 12.—Nineteen members of the Young Woman's Christian association of this city have gone to Lake Geneva to attend the national convention now in session there. They will return August 21. The present delegation is the largest Madison has ever sent to the conference. Between 600 and 700 delegates from all parts of the country are expected to be in attendance.

MOTHER OF SIX CHILDREN HANGS SELF FROM RAFTER

JOHN LIND ADVANCES AMERICAN POLICIES TO MEXICAN ENVOY

Reports State Lind Arrests Rumor of Interference With Policies—Will Recognize in Time.

Washington, Aug. 12.—Dispatches today to the state department from John Lind, personal representative of President Wilson in Mexico, described his visit with Frederico Gamboa, Mexican minister of foreign relations.

While officials here declined to discuss the dispatches, it was understood on good authority that the conversation extended beyond the formalities of social call. Senator Gamboa and Mr. Lind talked briefly about the situation, and while Mr. Lind did not reveal entirely the purposes of his errand, he is declared to have met at least one point that he was coming to interfere directly in Mexican politics. The general understanding in official circles is that Mr. Lind had intimated that the American government would continue to oppose recognition until a constitutional election was held.

URGES POSTPONEMENT OF CURRENCY BILL

President Wilson Issues Statement Before Congress—Urging Postponement—Hope for Passage.

Washington, Aug. 12.—President Wilson issued a statement before the democratic house caucus resumed consideration of the administration bill today, announcing that he believed it not advisable to amend the measure at present with provisions for rural circuits, but to postpone that phase of banking reform until the December session when the government commission now studying the subject in Europe will have reported. He said that Senator Mitchell Palmer, chairman of the caucus, conferred with the president and was acquainted with the contents of the statement through which it was hoped to persuade so-called interventionist democrats to abandon their fight for agricultural currency.

SENATE CONSIDERING CALLING OF RECESS

Would Adjourn Congress Until November 1 After Completion of Tariff Bill.

Washington, Aug. 12.—Democrats and republicans of the senate are earnestly considering the advisability of a recess of congress until November 1 after completion of the tariff bill and passage of the currency bill in the house. Senate democrats will caucus tomorrow and discuss a proposal of recess with plans for speeding up the tariff bill.

CIMMITY TO INSANE HOSPITAL AFTER DIVORCE

Oshkosh, Aug. 12.—John F. Weitz, who was granted a divorce from his wife after they had been married 12 days on the grounds of desertion, was today adjudged insane and committed to the northern hospital.

STEAL CORN AND OATS WHILE FARMER WORSHIPS

Weyville, Wis., Aug. 12.—Edward Churchill, a farmer of this town, is not a devout churchman, a fact which troubled exceedingly his good wife. Last night she recalled to him that he had not been to church in a year and that there was a prayer meeting at evening to which he ought to go. The Churchills went. This morning Churchill went out to the barn to feed his stock and found that a sack of corn and oats had been stolen while he was at church.

SIX PERSONS DROWNED WHEN LAUNCH OVERTURNS

Superior, Wis., Aug. 12.—Six members of a launch party were drowned in Superior Bay when the launch in which they were riding overturned. The bodies of Nettie Lasky, Mrs. Louis Lasky, Mrs. Aaron Siegel and her three children, Benjie, Phil and Sylvia were recovered from the bay at 2 o'clock this afternoon. One other, Clara Goldstein aged 20 of Minneapolis is missing.

There were 23 in the party all from Superior with the exception of Mrs. Goldstein, Matt Siegel of Fargo, N. D., and David Aaronson of St. Paul. Two are at the hospital, Mrs. Ed Lasky and Mrs. E. Franklin. They will recover. The party was on a trip and had a launch. The launch was caught in the swell of a passing boat and overturned.

REBELS SURRENDER FORTS WHILE LEADERS ESCAPE

Shanghai, China, Aug. 12.—The Wu-Sung forts hitherto in the hands of the rebels, surrendered to the northern government troops. The belief is prevalent that the surrender was largely a question of money. The leaders of the rebels made their escape from the Wu-Sung fort in the course of the night.

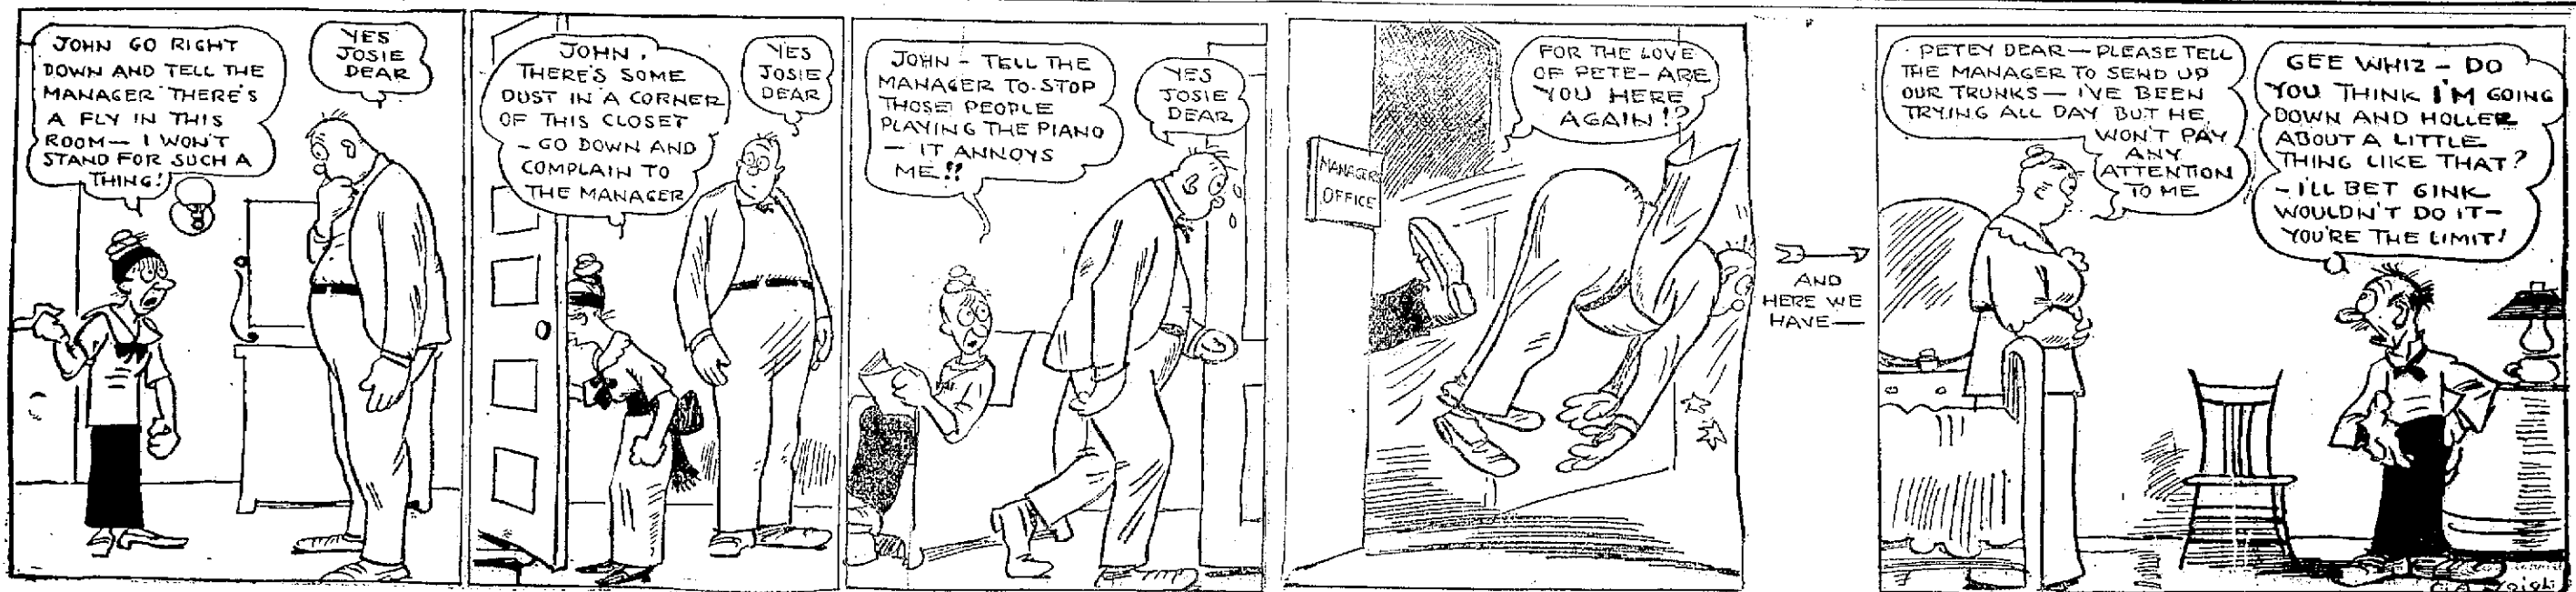

BLUE SKY LAW IS NOT OPERATIVE UNTIL OCTOBER

Madison, Aug. 12.—That the blue sky law is not applicable to the sale of stocks made before October 1st of this year is the ruling of Attorney General Owen in a letter to C. J. Teschle, district attorney of Antigo. He says he has a written opinion who sold \$400 worth of stocks to a widow. The stock is in the Venice Airship company of Venice California. The blue sky law does not become operative until October.

Gov. Sulzer (left) shaking hands with Lieut. Gov. Glynn. Insert Charles Murphy.

There is great rejoicing in Tammany Hall over the apparently impending political downfall of Gov. Sulzer of New York. The Tammanyized Fawcett committee which was appointed to investigate the charge Sulzer had used campaign contributions for his personal use on the stock market has reported that the governor is guilty of the charge. If this is true Sulzer may be ousted from his office; and the anti-Sulzer legislature, dominated by Charles Murphy, boss of Tammany Hall, may be counted upon to do all in its power to politically destroy the governor. Sulzer had made a sweeping denial of the charges.

GINK AND DINK. SOME MEN ARE WILLING MA RTYRS, SOME ARE NOT.

SPORT Snap-Shots

Maurice McLoughlin, our U. S. tennis hero, may bring about the decadence of our national tennis. It has been shown that the present day English players are not as clever as British stars of other days and all for the reason that they have all tried to adopt the style of playing made famous by the Doherty brothers, the tennis wonders of several years ago. The methods used by the Doherty brothers were such as were only well suited to their own personal habits of play and the attempt made by other Britons to imitate the Doherty style have weakened English tennis. The racket in such a way that it was unnecessary for them to change their grip on different strokes. Other players in trying to do the same thing injured their game. The state of affairs in America at present is somewhat the same. McLoughlin owes a big part of his tennis success to his remarkable serve which is practically impossible to return. In other respects he is not so brilliant. He plays a hard game, however, smashing the ball with great force on every stroke. Being quite an athlete aside

from tennis he is able to succeed with this. Other young American players, however, are emulating McLoughlin and smashing the ball with might and main in an effort to copy his style. It is a difficult matter to avoid faults when playing such a game, though, and the chances are that if the young American players persist in their present ideas their game will suffer.

Directly following the news of the McLean-Crandall deal comes the information that several of McGraw's players became incensed or wrothy

when they learned that the thing had been put over and friends of Crandall so far forgot themselves as to make McGraw, causing his nose to bleed. Crandall is very popular with his teammates, Mathewson and Merkle being his particular cronies. McGraw had been reviving his team for late hours and a few other things he seemed to disapprove. On top of which McGraw gave out the statement that he considered himself very fortunate in making the trade he had because he was getting a mighty good catcher in exchange for a pitcher who was all worn out and never was much good anyway. At this point several of Crandall's friends advanced upon McGraw striking him upon the nose and elsewhere. Cooler heads intervened before there was a general fight and the players all returned to their hotel together. There have been several versions of the fray, but this one seems the most popular.

They have an iron man all right in the American association. Pitcher Constock of the Indianapolis team went in the other day to twist the first game of a double header and lost, even though he pitched a peach of a game. Quite a few costly errors by his teammates gave the opposition the contest. Constock knew the Cardinals and made a deal with the St. Louis Cardinals for Larry McLean, the old Cincy backstop, giving them Otis Crandall in exchange. McLean has been catching good ball for the Cardinals and should strengthen the Giants if he makes an effort to be

THE BEST PAIN KILLER.
Bucklen's Arnica Salve when applied to a cut, bruise, sprain, burn or scald, or other injury of the skin will immediately remove all pain. Dr. E. Chamberlain of Clinton, Mo., says: "It cures cuts and other injuries of the skin. As a healing remedy, its equal don't do good for you. Only 25c, at People's Drug Co."

EXPECT HARD GAME AGAINST FOOTVILLE

Crandall and Tillie Will Meet in Pitching Duel at Cardinal Footville-White Sox Game.

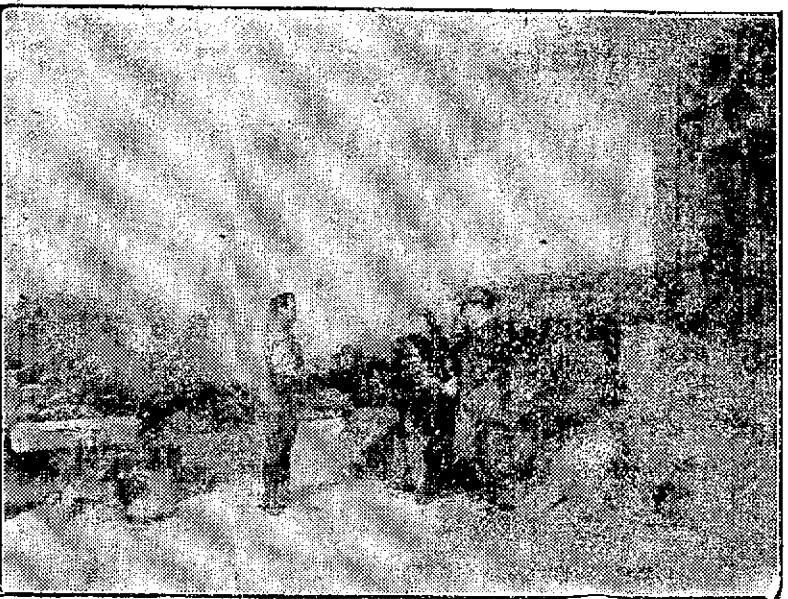

One of the hottest games of baseball of the season will take place Sunday afternoon at the Driving Park diamond when the Janesville Cardinals are to clash with the crack Footville White Sox. For the past four years Janesville has had no baseball team that would stand a show against the village team, but since the Cardinals have been playing such a fast game Captain Hell is confident that they can take the visitors' measure.

The game is sure to develop into a pitcher's battle as Tillie premier hurler of Albany with a record of fifteen wins this season out of seventeen games is billed to serve the twisters to the Cards. "Tillie is admitted to be about as good as there is in southern Wisconsin and has twirled winning ball for the Footville nine. Before, Beloit Moose and pitched one game for the Cards. He will not have things his own way for Crandall will be his opponent. The Milton youth is also some pitcher and has won every game that he pitched for the Cards. His most notable victory was against the Cardinals at Edgerton when he and "Cuddy" Butters hooked up in an eight-inning game in which Butters lost by a one to nothing score. There is no mound artist in this section of the state that has anything on Crandall when it comes to control and he usually sends about ten down by the whisk system. Wilson will be back in the spunkies and it is expected Jimmie Stewart and Porter will play in this game.

The Cardinals have been losing hard fought games of late by a matter of one or two runs. The White Sox have met two defeats this season, one against the Stoughton nine at Edgerton picnic and the Beloit Moose slugged them when "Skelly" Hall stomped out a double with two men on the circuit. One of the largest crowds of the year is expected to attend the game as it is in question in the minds of the local fans as to who is superior Crandall or Tillie.

The Theatre

"THE GREAT DIVIDE."
The management of the Myers Theatre announces "The Great Divide" as the attraction Sunday August 17, for matinee and evening. Henry Vaughn Moody, the author of this masterful piece of playwriting, has assembled characters in this unfolding American play totally unlike those portrayed in trashy offerings usually

SCENE FROM "THE GREAT DIVIDE" AT MYERS THEATRE, MATINEE AND NIGHT, SUNDAY, AUGUST 17.

depicted in cheap dramatic sensations. A play of deep and vital passion written with rare naturalism and beautifully acted, "The Great Divide" sets a new mark in American drama. In no story of Western American life have we come in touch with characters so strangely contrasted in nature as those of Stephen Ghent and Ruth Jordan, the central figures in the play. This man and woman are

charged with passion and filled with action. The big second act will be familiar to every one with a knowledge of the Cordilleras—a plateau of mountainous country, its valleys and foot hills, winding their way to the top of the great divide—truly named one of the seven wonders of the world. Mr. C. S. Friarose, the producer, has secured a complete scenic production.

Stain Remover.

It is sometimes difficult to keep the kitchen paper free from grease stains. They may be removed entirely if a mixture of pipe clay and water made the consistency of cream is spread over them and allowed to remain overnight. In the morning it should be removed with a clean brush or cloth.

Heat Lightning.

Heat lightning is ascribed to distant lightning flashes which are below the horizon, but illuminate the higher strata of clouds so that their brightness is visible at great distances; they produce no sound, probably in consequence of the fact of their being so far off that the rolling of thunder cannot reach the ear of the observer.

DANIELS' JUDGMENT.

Lind has been received by the
Huerta government. Wilson's doc-
trines have been expounded, and now
comes the news that Japan's ruler
has refused to recognize Felix Diaz
as a special ambassador from Mex-
ico. Truly, the jingo press are find-
ing it hard to make an issue of the
Mexican trouble. Wilson's statement
that a lobby was at work, an insidi-
ous lobby at that, seeking to em-
barrass the United States in the Mex-
ican revolutions, apparently has some
grounds for truth. However, the
most important development is Ja-
pan's refusal to recognize Diaz. The
Chicago Inter Ocean discusses it un-
der the caption, "The Handwriting on
the Wall," as follows:

"The Japanese government has
never been accused of lack of astute-
ness. It is usually pretty shrewd in
observing the trend of world events,
and General Huerta, if he be wise,
may see in its latest action with re-
ference to Mexico the handwriting on
the wall presaging his speedy down-
fall.

"The Japanese government has
'diplomatically intimated' to General
Huerta's 'government' that it de-
clines to receive General Felix Diaz
as special envoy to Japan to express
the thanks of Mexico for Japanese
participation in the Mexican centen-
nial.

"In short, the Japanese government
thinks it foresees the speedy down-
fall of Huerta and does not wish to
antagonize Huerta's successor.

"Only a few days ago the Huerta-
ists enthusiastically greeted a
Japanese diplomat accredited to their
country. This was intended as a slap
at the United States. There was
much talk of Japan obtaining a naval
base on the west coast of Mexico be-
cause of its friendliness to Huerta,
and reports also had it that Japan
had secretly offered Huerta aid in
case of war with the United States.

The sending of Diaz, next to Huerta
the most important figure in the re-
cent revolution, to Japan was also a
patent bid for Japanese support and
comfort and a note of defiance to the
United States.

"Japan undoubtedly was willing to
take any possible diplomatic advan-
tage of the situation. But Japan is
not foolish. It is not in the habit of
wagering upon a losing card.

"If General Huerta has no common
sense of his own, he might at least
trust the common sense and insight
of his whilom Japanese friends and
take such steps as remain possible to
break the force of his inevitable fall."

TAMMANY'S REVENGE.

Today's dispatches announce that
the followers of Charley Murphy,
Tammany's leader, have succeeded in
bringing about the impeachment of
Governor Sulzer of New York. It is
merely the washing of the dirty linen
of the New York democratic party
and will result in a bitter fight in the
ranks of this organization which may
restore to the Empire state to the re-
publican columns at the next general
election. The charge is that Sulzer
used campaign funds during the last
election for stock speculation. It is
intimated that his wife did this with-
out his knowledge, but the excuse is
a flimsy one and will not stand in-
vestigation. At any rate New York
state has another scandal and this
time Tammany is the would-be puri-
fier.

THE RACES.

Out at the Park association track
are quartered some of the finest bits
of horse-flesh in the middle west to-
day. The three days' races which

mark the opening of the Wisconsin
Grand Circuit, are on. It is up to
the citizens of Janesville to show
their appreciation of the efforts of the
men who made these races possible
by their attendance. Janesville has
come back to its own in the harness
game and the next thing is to keep
it there.

Appreciating the fact that they are
blocking up the approaches to the
Milwaukee street bridge with their
building material, the Gould Construc-
tion company are erecting at their
own expense, a walk-way on the
south side of the proposed structure,
as well as at the north side, ordered
by the council. The public will
please remember this when they
complain of the blocking of the
streets.

Considering the trouble brewing be-
tween this country and Mexico, it
would have been no more than con-
siderate on the part of Mrs. Fish and
Mrs. Aster to postpone their battle
for supremacy in Newport.

The board of health in Chicago ad-
vises its citizens to keep their tem-
per during the hot weather. But any-
body in Chicago who can keep his
temper is entitled to live somewhere
else.

The occasional touches of tropical
weather we have been getting can't
help but arouse admiration for Cen-
tral Americans who have energy
enough to start revolutions.

It is given out that the Wells-Fargo
Express company made 146 per cent
profit in California last year. Has
Governor Johnson been sleeping at
the switch.

It is said that 70 per cent of the
convicts on parole made good. If
that is so they have the people who
never were in prison beaten by six-
city blocks.

The Mexicans should have a care
in claiming relationship with the
Japanese. The Japs are easily of-
fended and are good fighters.

"A New York man ate five dozen
eggs without getting up from the ta-
ble." Probably the getting up was
postponed indefinitely.

The corn crop is reported irre-
trievably ruined again. Revised
prices of beef and pork to be an-
nounced shortly.

Of course the senators who have
been talking war with Mexico will be
the first to put on their uniforms in
case it comes.

Probably one of the first objects
sought by the housemaids' union will
be the abolishment of the house-
maid's knee.

It is said that every time a woman
carrying a handbag crosses London
bridge there is a panic in the house
of commons.

A Chicago judge says that "too
many wives are killing their hus-
bands." But how many are just
enough?

Jack Johnson says he intends to
live the rest of his life in Paris.
Here is a new white man's hope.

A Satisfied Owner.

Much is heard in automobile cir-
cles of "satisfied owners." In this
connection the following letter has
just been received by an automobile
agent from an owner who appears to
be satisfied and then some:

"Dear Sir—You ask me to write
and tell why I purchased one of your
cars. I give the following reasons:
"The Price—The local dealer is
my brother-in-law and he gave me
80 per cent off. That is why I like
the price.

"Style and Body—During most of
my life I have ridden in a buggy and
your car appealed to me because it
bears a greater resemblance to a
buggy than to an auto. Then, again,
when I am bumping along over the
country roads I feel right at home,
because it reminds me of a milk
wagon I used to drive for my father.
Many an argument we had about
that wagon, too, but later father
gave in and had springs put on.

"Appearance—The people around
here go in very little for style, and
had I purchased a fine looking car
of advanced body design the chances
are they would have gained the im-
pression that I was stuck up. With
your machine a great many people
never know but what I made it my-
self.

"The Engine—A great many cars
have motors that you can hardly
hear at all, which is rank nonsense.
With my car, if I should be struck
by a train at a crossing, I have a
chance to collect damages, because I
can prove that neither I nor anyone
within a block of me heard the loco-
motive whistle.

"Easy Cranking—I have seen own-
ers of other cars turn and turn with-
out getting a spark, while with my
machine I never have to crank more
than fifteen or twenty minutes before
it starts right off.

"Yes, indeed, your car is a great
car and if I were to have one made
to order, the only improvements I
would insist on would be a shorter
and smaller radiator, a wider, a
narrower seat and body to discov-
er, if possible, the present deplora-
ble custom of your drivers to lounge
luxuriously in the cushions and force
them to sit, if possible, more erect;

the elevation of the body at least
another foot and the substitution of
solid wooden tires instead of the
pneumatic. This would obviate all
the trouble and with no noticeable
decrease in the riding qualities of
the car as constructed at present.
"Not wishing to flatter your car
at all, the foregoing are my honest
opinions and I would be glad to
recommend your car to anybody who
is seeking strenuous exercise and
does not go riding simply for pleas-
ure. Very truly yours,
"J. F. J."

Heart to Heart Talks

By JAMES A. EDGERTON

THE UPWARD PATH.

The chief satisfaction of climbing a
mountain is not in the view it affords,
beautiful as that may be, but in the
sense of surmounting obstacles.

It is a battle with the boulders and
the force of gravity. It is a victory
won. It is the action of conquering,
of rising, of overcoming.

All mountains are not made of earth
and rock. Some are constructed of
passions and the very substance of hu-
man life. The difference is that the
physical ascents we scale occasionally,
while the moral heights we are climb-
ing forever.

We climb by setting our feet upon
unquashed temptations. Every un-
worthy desire overcome is a stepping
stone. Thus our very evil propensities
may be made to become our helpers.
They are for us to conquer, they are
for us to surmount, and each one lifts
us higher and nearer to the goal.

We are here to accomplish, to pro-
gress, to evolve. The constant urge
of the soul pushes us forward. The di-
vine impulse is in us to continue mov-
ing.

Aspiration is of God, and it keeps the
race ever mounting from howler to
boulder of achievement. This ascent
of the mountain of life we call achiev-
ing success. Anything is success which
brings us higher in the scale of being
and of consciousness. And even though
we rise on seeming failures the victory
is as great.

The object of life is not so much to
have things, but to be things; not to
accumulate, but to assimilate; not to
add to our bank deposit, but to add to
our character deposit.

The object of life is soul growth, ad-
vancement toward fullness of being,
expansion in divine consciousness.
Whatever contributes to these ends is
worth while. Whatever does not so
contribute is wasted effort.

We should be able to say at each
nightfall that we have made progress,
that we are a little higher on the up-
ward path than we were at the morn-
ing.

In climbing a mountain we keep in
our minds the final summit. In as-
cending the mountain of life we should
keep in view the whole path, not only
up to the veil, but beyond it. If we
once see this entire glorious ascent,
how trivial seem the accidents and
troubles that before disturbed us!

Poverty, disappointments, separation
from friends, death itself, all become
little things of no moment. We sud-
denly understand that they are but the
mists on the slope. Whatever we may
encounter, however black may be our
despair, the one supreme object of
life remains—to climb the path.

Up, up, up forever—up to the full-
ness of our own lives, up to a broader
vision, up above the desires that en-
slave us, up into the freedom of truth,
up to the goal!

Much Like Humpty Dumpty.
A few broken promises will keep a
man busy the rest of his life trying
to pick up the pieces.

LONDON FIRE CHIEF

THOUSANDS ATTEND OPENING RACES OF THE BIG MEETING

GRAND STAND PACKED TO CAPACITY THIS AFTERNOON AT PARK ASSOCIATION TRACK.

ACCIDENT MARS RACE

Races Late in Starting. Two Eighteen Pace Attracts Unusual Attention—Fine Field of Horses Entered.

Despite glowing skies thirty-five hundred enthusiasts were in attendance at the Park Association track this afternoon when Starter John L. Fisher gave the word go in the first of the races of the newly organized Wisconsin Grand Circuit.
The grand stand was packed to capacity and the fence, both inside the half mile and outside the mile track was lined with autos and carriages many having come from a distance. Several Milwaukee, Madison and even Chicago cars being recognized among the visitors.
John L. Fisher acted as starter with Dr. Chas. H. Beloit, James Conroy of Edgerton and G. L. Brown of Fort Atkinson as judges and John C. Nichols and John Soultman of Janesville timers. Frank L. Smith was clerk of the course. The track was in good condition, the rain early in the week having laid the dust and made it fast.

There were several scratches in the first race of the afternoon the following being the entry list.

Belle Knight, Ch. M., P. M. Pearse, (Dixon, Ill.)
California Dillon, Ch. S., E. R. Elliot & Co., Madison, Wis.
Ave. Dick B. G., J. Blackman, Miles City, Mont.
Pato, Br. M., Guy Stanger.
Laural Mal, Ch. S., W. S. Scott, Freeport, Ill.
Charley Howe, B. G., Chas. Schaller, Janesville, Wis.

Henry Council, B. G., Chas. Payne, Monmouth, Ill.
Henry S., R. G., Henry Kordatsky, West Allis, Wis.
Birdie B. G., M. J. J. Clarke, Minneapolis, Minn.

The first heat went to Agnes K. with Avon Dick and Laura Hal in one two three order. The time was 2:11 1/2.

During the second heat of the 2:15 pace, when Avon Dick was about to go under the wire, the horse slipped and fell over and tipped his driver, Blackman, onto the ground.

Pato was immediately behind the horse and before the driver, Stanger, could stop, had run over Avon Dick.

The horse only suffered minor injuries but will be unable to race.

The driver escaped with minor injuries and Pato was caught after circling the track several times.

In the second heat Agnes K. Ist; California Dillon 2nd; Great Onward 3rd.

In the two sixteen trot there were also some scratches the following horses starting:

2:16 Trot.
Six Cylinder, Fenn B. G., J. M. Huglin, Janesville, Wis.

Peter Pan, B. G., D. J. Fenelon, Ripon, Wis.
Dexter Jay, R. G., Jack Zieglerbauer, Milwaukee, Wis.
Mazo Boy won the first heat in this race, with Addition second and Golden Rod third. Time 2:09 1/2. Spill the favorite was fourth.

YELLOWSTONE PARK MOTOR PARTY HERE

Reached Janesville at Midnight—Blazing New Trail From Chicago to National Park.

R. M. Food, highway commissioner for South Dakota; John D. Deane, immigration commissioner; G. Holmes of Wyoming; George Edwards, representing the "Automobile Blue Book," a photographer and chauffeur, made up an automobile party that reached Janesville at midnight and continued their journey at five o'clock this morning. They are blazing a new trail from Chicago to Yellowstone park for the purpose of convincing motorists that the northwest is a shorter and more convenient route than the one via Denver. The trail to be followed by the party from Janesville leads them to Madison, La Crosse, Waterloo, Pierre, Rapid City, through the Black Hills to Cody, Wyoming, and north into the park. The trip, being made under the auspices of the Chicago, Black Hills, and Yellowstone Park Association. More cars are expected to follow.

FEAR THAT DRAINING WILL AFFECT POWER

Reclamation of Horicon Marshes Not Favorably Regarded by Owners of Water Power Plants.

That the draining of the Horicon marshes, in which the Rock river has its source, will have an injurious effect on the water powers on that stream, is the belief of local power men. The railway commission, in the application of the governor, recently made an investigation and gave as their opinion that the draining of the marsh would be an improvement and there is great probability that the project will be carried out. Waterpower men say that deepening of the Rock river at that point and the excavation of seven miles of ditches with their laterals would result in making the flow of the stream much less constant than at present. In the spring, and following periods of heavy rainfall, the stream will be swollen to unusual proportions and then recede to low water level. There are 40,000 acres of land in the marsh, one of the largest in the state, and it acts as a governor of the flow of the Rock river. The water from it passed out gradually, whereas if drained the marsh will no longer have this salutary effect on the stream. If the contemplated improvement of the river is voted by congress the government may have something to say about the proposed drainage. Some means of insuring a steady flow of water might be found necessary.

ANOTHER SURVEY IS BEING STARTED FOR INTERURBAN ROAD

Field Work in Progress Between Stoughton and Edgerton—May Be Part of Chicago-Wisconsin Valley Line.

Work on another survey for an interurban road from Madison to Janesville is now in progress, between Stoughton and Edgerton. A large party of engineers are at work and apparently rushing matters so as to arrive in Janesville as soon as possible. While they would not state for whom they were working it is thought to be a party in the employ of the Chicago and Wisconsin Valley street railway company which was recently granted a franchise in Madison.

This company announced its plans at the time of the granting of the franchise by the Madison council, for a series of interurban roads all centering in Madison as follows:

A line from Madison to Portage and thence north of Portage to Prairie du Sac and thence to Viroqua, to connect with the line from La Crosse.

A line from Madison to Janesville, thence to Beloit, Rockford, Freeport and Chicago lines.

A line from Madison to St. Paul, Prairie du Sac and thence to Beaver Dam and Fond du Lac to connect with the lines from the north and west.

A line around Third Lake.

The company within sixty days must show that \$200,000 has been set aside to start construction work and pay debts contracted previous to the organization or he franchise will be forfeited.

BRIEF LOCAL NEWS.

Gives Address: Thomas Nolan gave an address at the picnic of the Rockford street railway company, picnic at Hartman Park this afternoon. Mr. Nolan is the attorney for the Rockford Interurban company.

Sunday School Picnic: The Sunday school picnic of the Swedish Lutheran church will hold its annual picnic at Crystal Springs tomorrow.

Boats will leave the Fourth avenue dock at 9:30 a. m. and 2 and 6:15 p. m. and leave the grounds returning at 5 and 8 p. m.

Two Paid Fines: Howard Crubagun and James McJermott pleaded guilty to charges of intoxication in the municipal court this morning and were fined \$3 each, costs each, which they paid.

Drums are now prosecuted under the city ordinance with the result that the costs are \$2.45 instead of \$1 as under the state law.

Meeting is Adjourned: Adjournment of the City Council until tomorrow morning.

At this morning was taken at the meeting yesterday afternoon, but as the city could not close up a contract with the Rock County Telephone Company concerning the buying of its wires because of the absence of officials of the latter a further adjournment was taken until tomorrow morning.

The petition of the Company will be acted upon at that time.

To Minimize Smoke: It has been learned that the Gould Construction company will burn Pocahontas coal in its boilers so as to minimize the smoke nuisance during the construction of the bridge.

Surveying Survey: City Engineer C. V. Kucel is busy making a survey of the bridge approaches to learn what effect a two foot elevation of the proposed structure will have on the adjacent streets and the adjacent property. The survey, together with detailed plans of the bridge will be taken to Rock Island and submitted to Major Charles Keller by Mayor Father and the city engineer.

May Soon: Harry Nowlan, resigned from the fire and police commission, before the end of the week. The commission has been temporarily called together for reorganization as it has been without a head since the resignation of Mr. Nowlan, its president.

Thought Horse Stolen: W. H. Smith, 38 South River street, reported to the police this morning that his horse had strayed or been stolen last night. The horse returned home late this morning covered with perspiration and it was found that the horse had been taken out of the barn is supported by the fact that the halter was found unbroken. Had the horse been pulled off or torn.

Early Cultivation of Tobacco. The cultivation of the tobacco plant was about the first thing the American colonists turned their attention to upon recovering from the gold fever. It is known that John Rolfe, the husband of Pocahontas, had a field of tobacco at Jamestown in 1612, and it is believed that the plant was cultivated by Rolfe and his neighbors at an earlier date than that. The export records of tobacco from Jamestown colony appear to begin in 1612.

WEAN LAMBS EARLY, ADVICE OF EXPERT

Flockmaster at College of Agriculture Gives Explanation For Large Mortality

A large per cent of the mortality of lambs and the poor condition in which ewes in far too many Wisconsin flocks go into the winter season is due to the mistake of allowing the lambs to run with their mothers until late in the fall or until they wean themselves is the belief of Frank Kleinheinz, Shepherd of the flocks maintained by the Wisconsin College of Agriculture.

This well known flockmaster recommends that after the lambs have had the benefit of their mother's milk for from four to four and one-half months they be taken away and placed on fresh pasture. This, besides keeping down the most common of sheep parasites—the stomach worm—will give the ewes an opportunity to be in a vigorous condition at breeding time. This means that a large percentage of lambs of a more uniform size will be born from the flock the following spring. The common practice of separating the lambs from the ewes for two or three days at weaning time and then turning them back again so that the lamb may remove the milk which has accumulated in its udder is because of the danger that the lambs may scour after drinking this abnormal milk.

The ewe should be milked out as often as necessary after weaning time to prevent her from becoming over-fat. This should be done until the ewes are all dry, and to hasten the drying up, they should be placed on scant pastures for about eight or ten days. In addition to plenty of green pasture, the lambs should be furnished a small quantity of grain to prevent any possible check in their growth.

By experience and observation, extending over a period of 24 years, Mr. Kleinheinz has convinced himself that the raising and feeding of sheep can be carried on in Wisconsin with unusual success and profit. Year after year at the University farm he has been able to raise profit producing flocks of the various breeds recognized as superior for Wisconsin conditions. And he is familiar with the success of many of the flockmasters of the state including William Reik, Secretary of the Wisconsin Sheep Breeders' Association, who upon graduating from the Short Course in the Wisconsin College of Agriculture, settled upon his father's farm in Dodge county and began the breeding of Hampshire and Shropshire sheep. His records during the past ten years in the leading show rings of the Middle West abundantly show that he has been able to produce types popular with foremost sheepmen of the country and his financial success has been quite as noteworthy. Among the many other Wisconsin farmers who have been successful in sheep raising are George Mckerrow of Waukesha county; L. Kammerer and Arthur Broughton of Green county; George Phillips of Outagamie county, and W. Woodward of Chippewa county.

Sheep feeding, too, is becoming a considerable industry in the state, the feeders for a large part being purchased upon the South St. Paul and Chicago markets. Frank Catlin of Bayfield county and the Columbia Canning Company of Columbia county are among the most successful feeders.

SPECIAL BREAD LESSON

Bread making will be the interesting feature of the lecture tomorrow afternoon. Comparatively few housekeepers now days bake their own bread, depending almost entirely on bakers' bread. Miss Peet says, that if women would only realize the difference between this bakers' bread and good bread made with care, they would not hesitate to go to the extra trouble of making it. Most men appreciate good home made bread instead of that bought at the store. Miss Peet says that no cook is a real cook until she can make good bread and it is the home made variety that makes men like to eat at home instead of away from home. Every woman should give her husband such good home made bread that he would be dissatisfied with what he gets away from home. Miss Peet will talk about the qualities of yeast, flour and the new shortening, having specialized upon this branch of the culinary art for several years. The menu announced for tomorrow is as follows:

Bread Rolls
Timbale Molds
Ribbon Cake
Planked Steak
White Cake

Saves Miles of Steps For Tired Feet.

"Why Do You Use the Hoosier Kitchen Cabinet?" we asked Miss Peet. "It saves miles of steps for tired feet," she answered quickly.

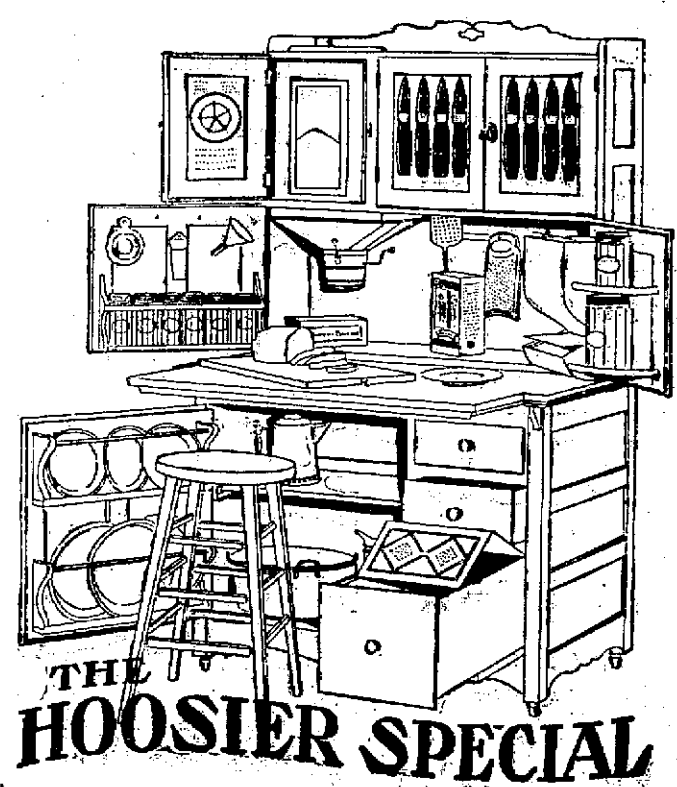

In a little space forty inches wide the Hoosier Kitchen Cabinet groups ALL things one needs in preparing a meal. It puts everything at your fingers' end so you can sit down as you would at your piano. You work in comfort.

The scores of women right here in this town who use Hoosier Kitchen Cabinets find they are less tired at evening. They get their work done more quickly—more systematically.

You may see the new Hoosier Kitchen Cabinet now—every detail inside and out is open to your inspection. No one is ever asked to buy a Hoosier Cabinet unless she wants it. Feel free to ask any questions you like when you come in to see this cabinet.

ROOT ROT APPEARS IN TOBACCO FIELDS

Growers Are Alarmed at Prevalence Of Disease Which Stunts Growing Crop.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Aug. 13.—Farmers in the tobacco sections of Wisconsin, are alarmed over the appearance in their fields of the "root rot" which in many instances is prevalent to such an extent that prospects of large profits have vanished. The damage has been particularly noticeable in the tobacco fields of Dodge county, the leading tobacco district in the state. Plants which should now be in full vigor of leaf development appear yellowish and stunted, and are blossoming prematurely.

Experts of the college of agriculture are advising growers to cease planting fungus-infected fields to tobacco next year. The experiment station is working on the problem, with the object of developing a disease-resistant strain.

Life is a Compliment.

I have an abiding faith that a falsehood never hurts anyone but him who propagates it. It is also my conviction that no man can pay a much greater homage to another than to deliberately misrepresent him. It is a cowardly confession of weakness and of inferiority.—John Bigelow, in "Retrospections of an Active Life."

MRS. CLARENCE MACKAY BURIED IN DULL TOWN, GOSSIPS SEE A DIVORCE NEAR

Mrs. Clarence Mackay.

From the gay life of a popular society woman, a leader in the smartest affairs of New York, Newport and Bar Harbor, to a hermit-like existence in quiet Portland, Maine, is the change recently made by the ex-living Mrs. Clarence Mackay, the former Kitty Duer. Some weeks ago Mr. Mackay, accompanied by the three children, left for Europe. Since then rumors of divorce have been rife, and gossips whisper that Mrs. Mackay is establishing a residence in Maine for the purpose of getting a divorce there next year.

two ago. Shortly after he was in-
troduced to Pickard told the girl,
whose name was Miss Stella Griffin,
that he would marry her if the
Giant won. The Giants did in the
meantime. Pickard had forgotten the
girl's name; but she was kind
enough to tell him when he went to
get the license.

JANESVILLE,
WEDNESDAY
AUGUST 13, 1913.

EXPLANATORY NOTES.
Observations taken at 8 a. m., 11 a. m., 2 p. m., 5 p. m., 8 p. m. Air pressure reduced to sea level. Isotherms (continuous lines) pass through points
of equal air pressure. Isotherms (dotted lines) pass through points of equal temperature; drawn only for zero, freezing, 50°, and 100°.
☉ clear; ☁ partly cloudy; ☂ cloudy; ☔ rain; ☎ snow; ☐ report missing. Arrows fly with the wind. First figures, lowest
temperature past 12 hours; second, precipitation of .01 inch or more for past 24 hours; third, maximum wind velocity.

August 13, 1913.—A barometric de-
pression in Manitoba is the only dis-
turbance of any importance on the
weather map. This area has associ-
ated with it areas of rainfall on the
plains, and on the north Pacific coast.
There have also been local rains on
the Middle Atlantic coast, and around
the Gulf of Mexico. Elsewhere fair
weather prevails.

It continues warm in the lower
Missouri valley, with minima of 80 de-
grees and over this morning at Kansas
City and St. Louis. The temperature
is above normal throughout the Mis-
souri valley. It is cooler in the Rocky

Mountain region, with patches of es-
pecially low temperature in Colorado,
Utah, Nevada, Montana, and Alberta.

Was it a Hint?
They had been talking as they
walked. She had remarked pathet-
ically: "Oh, it must be terrible to a
man to be rejected by a woman!"
"Indeed it must," was his response.
Then, after a while, with sympathetic
ingenuitiveness, she exclaimed: "It
doesn't seem that I could ever have
the heart to do it." And there came
a silence between them as he thought
it over.

Take Time to Think.
Stopping to think is a habit worth
cultivating and worth teaching. There
is safety in it, and happiness. Stop-
ping to think would save many a life
now sacrificed by thoughtlessness. It
would also save many a heartache
now needlessly inflicted for no other
reason than that "I didn't think."

JANESVILLE,
WEDNESDAY
AUGUST 13, 1913.

EXPLANATORY NOTES.
Observations taken at 8 a. m., 11 a. m., 2 p. m., 5 p. m., 8 p. m. Air pressure reduced to sea level. Isotherms (continuous lines) pass through points
of equal air pressure. Isotherms (dotted lines) pass through points of equal temperature; drawn only for zero, freezing, 50°, and 100°.
☉ clear; ☁ partly cloudy; ☂ cloudy; ☔ rain; ☎ snow; ☐ report missing. Arrows fly with the wind. First figures, lowest
temperature past 12 hours; second, precipitation of .01 inch or more for past 24 hours; third, maximum wind velocity.

August 13, 1913.—A barometric de-
pression in Manitoba is the only dis-
turbance of any importance on the
weather map. This area has associ-
ated with it areas of rainfall on the
plains, and on the north Pacific coast.
There have also been local rains on
the Middle Atlantic coast, and around
the Gulf of Mexico. Elsewhere fair
weather prevails.

It continues warm in the lower
Missouri valley, with minima of 80 de-
grees and over this morning at Kansas
City and St. Louis. The temperature
is above normal throughout the Mis-
souri valley. It is cooler in the Rocky

Mountain region, with patches of es-
pecially low temperature in Colorado,
Utah, Nevada, Montana, and Alberta.

Was it a Hint?
They had been talking as they
walked. She had remarked pathet-
ically: "Oh, it must be terrible to a
man to be rejected by a woman!"
"Indeed it must," was his response.
Then, after a while, with sympathetic
ingenuitiveness, she exclaimed: "It
doesn't seem that I could ever have
the heart to do it." And there came
a silence between them as he thought
it over.

Take Time to Think.
Stopping to think is a habit worth
cultivating and worth teaching. There
is safety in it, and happiness. Stop-
ping to think would save many a life
now sacrificed by thoughtlessness. It
would also save many a heartache
now needlessly inflicted for no other
reason than that "I didn't think."

OPENING ANNOUNCEMENT

***Ladies' High-Class Man-Tailored Garments
and Best Quality Furs***

***It Is With Pleasure That We Announce the Opening of Our
New Store in the Peters Building, East Milwaukee Street,
to Take Place Friday, August 15th.***

Women generally will be interested in this announcement and what it portends.

This business had its inception in Janesville three years ago and has been known as "M. Lewis, the Reliable Furrier." The rapidly growing business demanded an increase in floor space and a downstairs store. Now we're proud to announce to our patrons the opening of one of the finest stores in the city.

Excellence in the Manufacture of Fur Garments

Can be obtained only by years of experience---to select the best pelts; to know how to cut them properly and to make them into completed garments, requires a higher degree of skill than in most any other manufacturing.

Mr. Lewis is an expert furrier and has justly earned, in Janesville, the title of "Reliable Furrier," and is prepared to execute orders in an entirely satisfactory way. We would suggest the desirability of having you give us your special orders for work as early as possible. Then you'll be ready when cold weather comes. We do fur remodeling of all kinds.

Charming Styles in Tailored-to-Order Garments

The best efforts of Mr. Strasberg, who is a skilled, competent tailor, and who was for years with Marshall Field & Co. and Madame Widney, of Chicago, will be constantly employed to attain the greatest possible perfection in our tailored-to-order garments for women. Every garment will be "hand-made" man-tailored on the premises under the direct personal supervision of Mr. Strasberg. This assures an individuality in your garments impossible to obtain elsewhere in Janesville.

Those women who desire their apparel to be distinctive and original, correct in style, tailoring and fit, should see our exhibit. Every garment made by this shop portrays that vital element of style characteristic only of the best custom tailoring.

The Evening Chit-Chat
BY RUTH CAMERON

GETTING STARTED.

"W" E'VE had such a good time this evening," said a neighbor of mine the other night, as she and her husband were leaving after a call that we, at least, had found most enjoyable. "It's done me lots of good to get out. We should have come long ago; we've spoken of it again and again, but you know it's so hard getting started. We won't let it be so long again."

I'm sure my neighbor meant that last with all her heart when she said it, and yet I'm sure that it will be quite as long again. You see, I don't feel pretty sure that she'll run up against that same old snag—the difficulty of getting started.

And what a snag that is, to be sure, for the whole human race.

"I meant to do a lot of good reading this winter," says Molly, the Little Stenographer, Lady, "but somehow I couldn't seem to get started."

"I don't know when I've enjoyed a course of lectures so much," says the Author-Man, "and to think I missed the first three just because I didn't get started."

"I don't mind doing the dishes," says my neighbor as she fingers at the supper table, "but it's awfully hard to make the start."

How much pleasure, how many kind deeds, what brilliant enterprises are lost to the world just because that particular cog in the human make-up that gets things started works with such difficulty!

Most of us human beings seem to be like automobiles which have been stalled. Once the start has been made, we glide along as easily as can be, but someone has got to work over us just so long before we can be started.

There are always ten people who will go ahead with energy on any enterprise to one who will start it.

Is there anything rarer than a caller who finishes her call and then starts to go, and actually goes without any, repeats, any rumbling and creaking of the starting machinery? Unless it be the business man or woman who can sit down to his or her desk in the morning and start at once to work without any preliminaries.

Practice starting quickly and without fuss and you will be learning to eliminate one of the big wastes of the average human machine.

HEART and HOME PROBLEMS
BY MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson—(1) Please tell me what will take grease spots out of a felt hat; also clean it.

(2) What is good for dandruff?

A READER.

(1) A little chloroform will take out the grease spots. To clean hat: Put cold water in a saucer and add a few drops of ammonia. After that brushing the hat well, sponge with the water and ammonia. Then wring a thick cloth out of cold water, place over the hat and iron with moderate heat until dry. Pull away the cloth and you will find the hat has been raised, making the hat look almost like new.

(2) A little alcohol rubbed into the scalp every day or so will banish dandruff. Of course you must keep your brushes and combs and all hair ornaments perfectly clean, if you want to get rid of dandruff.

Dear Mrs. Thompson—I am a girl eleven years of age.

(1) How shall I cure my freckles? Some people say lemon juice, but that shrivels up the skin. Recommend something else.

(2) From my letter would you think I am getting a good education?

(3) What is a nice summer hat for me?

(4) How late should I stay out at night?

BOOK WORM.

(1) Bathe the face in buttermilk every day.

(2) Your handwriting and the blots in your letter show that you have not learned neatness and order. These are two things necessary to know.

(3) A wide-brimmed white straw trimmed with flowers or ribbon would be pretty.

(4) You should not stay out at night at all. Your place is at home after dark, my dear.

Dear Mrs. Thompson—We are three girls, each aged sixteen. (1) Are we too young to think of boys? (2)

(3) They will prove it by their constant loyalty to you, if they are true friends.

(4) No.

ROSE AND LILY.

(1) I would not consider him trustworthy.

The KITCHEN CABINET

SIX hours a day the woman spends on food!

Six mortal hours a day.

With fire and water, tolling, heat and strain.

Of chemistry and physics, and the weight of poverty and ignorance besides.

Tolling for those she loves, the added strain.

Of tense emotion on her humble skill.

SOME BEST RECIPES.

Here is a dessert which is worth while:

Fig Tapioca—Soak two-thirds of a cup of tapioca in water to cover over night.

In the morning add one and a half cups of light brown sugar, two-thirds of a cup of dried figs and two-thirds of a cup of chopped walnut meats and steam for one hour in a double boiler.

Stir in a tablespoonful of vanilla and turn into the serving dish. Chill and serve with cream.

Baked Omelet—Beat the yolks of six eggs until yellow and creamy, add a teaspoonful of salt, melt a tablespoonful of butter, add a tablespoonful of cornstarch and when well blended add a cup of milk, stir this into the yolks of eggs and lightly fold in the well beaten whites, pour into a well buttered pan and bake for twenty-five minutes.

Rock—Beat together a half cup each of lard and butter, add a cup and a half of sugar, two eggs well beaten, a cup of sour milk, two cups of oatmeal and three cups of flour, sifted with a teaspoon of soda, one of cinnamon, then add a half cup each of sultana raisins and walnuts chopped. Mix and drop on a buttered pan and bake in a moderate oven.

Chocolate Bread Pudding—Melt two squares of chocolate over hot water. Soak two cups of bread crumbs in a quart of milk for half an hour, then add two-thirds of a cup of sugar, add the chocolate, a half teaspoon of salt, a teaspoon of vanilla, two well beaten eggs and a half cup of nutmeats, turn into a buttered baking dish and bake for half an hour. Serve with rich milk or cream.

Frozen Coffee Custard—Scald a pint of milk. Beat four eggs together until light, add them to the hot milk with a cupful of sugar, remove from the fire and cool, add a pint of whipped cream and a half pint of cold coffee, then freeze. Serve in sherbet cups garnished with whipped cream.

Tyranny Over the Mind.

I have sworn upon the altar of God eternal hostility against every form of tyranny over the mind of man.—Jefferson.

NIFTY FROCK OF TILLOU CLOTH

This frock is made out of tilloel cloth. The skirt laps in the center of the front below the girdle, which is of black satin, and is rounded away from each side of the front at the lower part and the opening is filled in with lace. The jacket is of tilloel satin and is trimmed on each side of the front with satin buttons and loops. The sleeves are joined to the armholes with a seam, and they are three-quarter length and bound on the lower edge with satin. The vest is of pale blue chiffon trimmed with white lace.

Directions.—Mix all the ingredients together, except the yeast and flour, and bring to the scalding point; cool until lukewarm. Soak the yeast in one-half a cup of lukewarm water until dissolved, add to the cooled ingredients, pour into the bread maker, adding live cups of flour.

Turn until very light and thoroughly mixed. Let rise two hours; add six or seven cups of flour and knead in maker ten minutes. Set in a temperature of 65 to 75 degrees, and where there are no draughts, and let rise until light or about two hours.

Shape into loaves. Let rise until they double their bulk, and bake as

rich cream color and when taken between the thumb and forefinger should feel like fine grains of sand. This rich cream or yellow color represents the fat particles and under this translucent process the become pure white. This must make a ready sale for his flour, so says the miller, because the sack of flour is returned if the bread is not white.

But who wants it this way. Why, Mrs. Housekeeper, or at least, she has until she began to pick up her ears about everything pertaining to pure food. Now if she is "reading the label" she is learning to be discriminating in buying the food which contains the ingredients she is paying for and will give her the best returns for body-building.

So, after all is said, all these reforms in food are up to the housekeeper. She must refuse to buy bleached flour or bread made from it, or peas colored with sulphate of copper or catsup containing benzoate of soda. Then none of these things will be done.

Wholesome Bread, Four Loaves.

Materials—Milk, two cups; water, two cups; salt, two teaspoons; butter, one tablespoon; shortening, one tablespoon; yeast, one cake; sugar, one tablespoon; unbleached flour, ten or twelve cups.

Directions.—Mix all the ingredients together, except the yeast and flour, and bring to the scalding point; cool until lukewarm. Soak the yeast in one-half a cup of lukewarm water until dissolved, add to the cooled ingredients, pour into the bread maker, adding live cups of flour.

Turn until very light and thoroughly mixed. Let rise two hours; add six or seven cups of flour and knead in maker ten minutes. Set in a temperature of 65 to 75 degrees, and where there are no draughts, and let rise until light or about two hours.

HOUSEHOLD HINTS

To separate postage stamps, place stamps that have become glued together under a thin piece of paper and run a hot iron over this. The stamps will come apart easily and the mullage will not be soaked off, as it would be if the stamps were soaked in water.

When washing colored fabrics, the articles will not fade.

To label jars of fruit, write name across metal lid with an indelible pencil. This mark will remain until jar is washed.

If a pea or other porous substance has gotten into the ear do not think of syringing, as water will cause the pea to swell and practically double the trouble in attempting to free it.

When washing anything blue put a handful of salt into the water; green, a lump of alum; gray or brown, a little ox gall; tan or linen goods, bay water; reds and pinks, a little vinegar.

THE TABLE.

Little Orange Cakes—Two eggs, one cupful of flour, one cupful of sugar, half a cupful of butter, the grated rind of an orange, and the juice of half a small teaspoonful of baking powder. Beat the butter and sugar to a cream, add one egg and half the flour, beat well; add the other egg and the remainder of the flour; beat again, then add the grated rind and the juice and baking powder. Beat well, and bake in small tins for about twenty minutes.

Piled Grapes—Prepare the grapes as for preserving by removing the stalks, boiling the pulp and straining out the seeds. To five pounds of fruit add one cupful of vinegar, one cupful of grape juice, two pounds of brown sugar and a spice bag containing two tablespoonfuls of cloves, two bay leaves, one

piece of ginger root, two sticks of cinnamon, broken in small pieces, and one tablespoonful of allspice. Place in a preserving kettle over a moderate fire, and cook until thick, stirring constantly; this should take one hour and a quarter. Pour into glass jars and seal.

Cornstarch Cake—One cup of sugar, one-half cup of butter, one-half cup of cornstarch, one heaping cup of flour, one-half cup of milk, whites of three eggs, one-half teaspoonful of soda, one teaspoonful of cream of tartar, flavoring to taste. Cream the butter and add the sugar. Mix and sift the flour, cornstarch, soda and cream of tartar and add alternately with the milk. Add eggs beaten until stiff, and flavoring.

Scalloped Apples—The equivalent of a small loaf of baker's bread, one quart of sliced apples, one-fourth cup of butter, one-fourth cup of sugar, one lemon, nutmeg. Rub bread crumbs through a coarse strainer or a colander, melt butter and stir it in slightly. Cover the bottom of a buttered pudding dish with crumbs, cover crumbs with half of the apples, sprinkle with half the sugar and a few grains of nutmeg and half the lemon. Cover with crumbs and repeat the process, arranging a layer of crumbs on top. Bake forty minutes in a medium oven. Serve with cream and sugar.

Apple Relish—Twelve apples, two onions, three green peppers, one cupful of seeded raisins, one and one-half cups of brown sugar, one lemon, half a tablespoonful powdered ginger, half a tablespoonful salt, and two cups of vinegar. Core, peel and chop the apples, peppers and onions, add the sugar, vinegar, salt, ginger, raisins and lemon sliced thin and seeds removed. Mix thoroughly and cook for two hours, then bottle and seal.

Miss Julia Sanderson, the actress, on returning from Europe the other day, denied the rumor that she is engaged to marry, and laughingly said that one experience had been enough to last her for life.

"Never again," she said. "Why, I'm the happiest girl in the world. I've had a delightful time in France and everyone is so nice that I wouldn't spoil it for the world by marrying."

About Stamps.

Do not lick stamps. The best way is to moisten the envelope and not the stamp. When stamps stick together, do not soak them apart, but lay them on a smooth surface with a thin paper over them. This separates without destroying the gum.

BRIEF NOTES FROM THE REALM OF FASHION.

Fashionable slipper ornaments, including buckles, side rings and slides, may readily be made from old jeweled trimming or from separate imitation jewels sold by the dozen at the notion counter of the department stores.

Many of the most attractive afternoon gowns and those for evening wear as well, have very slim skirts of satin over which are four or five full gathered flounces of lace caught up with dainty sprays of sweet peas or lilies of the valley.

Resinol Stops Skin Torments

How This Wonderful Ointment Ends Itching and Heals Skin Eruptions.

Resinol Ointment, added by Resinol Soap, stops itching instantly, quickly and easily heals the most distressing cases of eczema, rash, ringworm, tetter or other tormenting skin or scalp eruptions, and clears away pimples, blackheads, redness, roughness, and dandruff, when other treatments have proven only a waste of time and money. Soothes sunburn at once.

Resinol is not an experiment. It is a doctor's prescription which was so successfully successful for skin troubles that it has been used by other physicians all over the country for eighteen years. No other treatment for the skin now before the public can show such a record of professional approval. Every druggist sells Resinol Ointment and Resinol Soap. Trial free. HOW CAMILLE DE VERLAC BECAME FAMOUS FOR THE BEAUTY OF HER HANDS AND ARMS

Free Prescription That Can Be Prepared At Home.

Camille de Verlac, famous for the beauty of her hands and arms, in a recent interview says: "If every woman knew about the prescription that has caused all this talk about my hands and arms they could make their hands and arms just as beautiful as mine. I am glad to have the opportunity to give my recipe free to the world. It will help every woman to improve her personal appearance."

When I asked her if she would allow me to publish the prescription, she quickly answered: "Certainly, only to glad to have you do it." Turning to a desk and handing it to me, she said: "Go to any drug store, get a one-ounce bottle of Kulex compound. Pour the entire contents into a two-ounce bottle and add quarter ounce which hazel, then fill with water. Apply night and morning. This prescription gives the skin a velvety softness and obliterates all defects such as freckles, tan, sun spots, roughness and ruddiness. A single application works a marvellous transformation." It can be applied to the neck and shoulders with equally gratifying results. It is absolutely harmless and will positively not stimulate or produce a growth of hair. It is deliciously cool and soothing and is not affected by perspiration. It will not rub off.

Meal Time

It does not suggest work and dirt nor bring worry to the woman who uses Gas.

The preparation of a meal on a Gas Range is an easy, pleasant task. There's no carrying of fuel or ashes, there's no dust, no time is lost and there's no fire to get "low."

The Gas Range is always ready for use and the heat can be regulated perfectly to suit the cooking.

Let us furnish full information about the "All-Gas Kitchen."

INTEREST INCREASES IN COOKING SCHOOL

MISS PEET'S DEMONSTRATIONS PLEASES LARGE AUDIENCE DAILY.

LUNCHEON IS SERVED

Women Are Treated to Some of Good Things Which Are Prepared at Session This Afternoon.

Today was a great day at the Gazette's Cooking School, which is in session each afternoon at Assembly hall and in the mornings according to special appointments, in charge of Miss Florence M. Peet, the cookery expert. The following delectable dishes were prepared and served today:

- Hot and Cold Salad Dressing
- Cocoanut Tea Cakes
- Codfish Balls
- Doughnuts

While probably every woman present had her own way of preparing each of these dishes, after watching Miss Peet do them her way and testing the finished product, it is no discredit to the Janesville woman to say that many of them will follow Miss Peet's directions hereafter.

One of the chief charms of Miss Peet's cooking is in the appearance of the foods. She prepares them in such a way that they are not only tasteful and easy to digest and full of food value, but their attractive garnishing and color contrasts act as a spur on the appetite.

Women who attended the meeting last night in the spirit of curiosity inspired by the statement that Miss Peet was actually going to bake ice cream, remained to write down the recipes and to congratulate not only Miss Peet, but also her assistant for having given them such an instructive and interesting entertainment.

Interest in Recipes. Quite a few of the ladies reported that they had tried some of the original recipes in the Gazette and had found them extraordinarily good. Some are clipping them from the paper and making a scrap book for future use, while the rest, Miss Peet demonstrates but does not publish are being prized still more.

Miss Peet's cook book, a copy of which has been given to every lady attending the lectures, contains most of her favorite recipes but as she is constantly devising new dishes, no one should miss attending a single session during the remainder of the week.

Special Bread Lesson. Bread making will be the interesting feature of the lecture tomorrow afternoon. Comparatively few housekeepers now days bake their own bread, depending almost entirely on bakers' bread. Miss Peet says that if women would only realize the difference between bakers' bread and good bread made with care, they would not hesitate to go to extra trouble of making it. Most men appreciate good home made bread instead of that bought at the store. Miss Peet says that no cook is a real cook until she can make good bread and it is the home made variety that makes men like to eat at home instead of away from home. Every woman should give her husband such good home made bread that he would be dissatisfied with that which he gets away from home. Miss Peet will talk about the qualities of yeast, flour and the new shortening, having specialized upon this branch of the culinary art for several years. The menu announced for

Soda crackers are more nutritive than any other flour food. Uneeda Biscuit are the perfect soda crackers.

Though the cost is but five cents, Uneeda Biscuit are too good, too nourishing, too crisp, to be bought merely as an economy.

Buy them because of their freshness—because of their crispness—because of their goodness—because of their nourishment.

Always 5 cents. Always fresh, crisp and clean.

NATIONAL BISCUIT COMPANY

tomorrow is as follows: Bread Rolls, Timbale Molds, Ribbon Cake, Planked Steak, White Cake.

It is worthy of note that no butter or lard will be used in the Ribbon Cake and Miss Peet will show the comparative cost between this rich cake that she will manufacture before her audience tomorrow afternoon and a similar one made with butter.

Every woman in Janesville is urged to be at the Assembly hall, at 2:30. Admission free. No seats reserved. That she will manufacture before her audience tomorrow afternoon and a similar one made with butter.

Be sure to have four cups of tomato juice. Add seasoning and then add the gelatine which has been soaked for 15 minutes in 3-4 cupful water. Pour into high oblong molds and chill. When ready to serve arrange on lettuce leaves. Slice three cucumbers with round notched cutter; take out the centers and put a stuffed olive in each. Decorate the salad with these and salad dressing.

One can tomatoes, stewed and strained, 1 teaspoonful salt, 1 teaspoonful cinnamon, 1 teaspoonful sugar, 1 teaspoonful allspice, 1 package Knox Gelatin.

Be sure to have four cups of tomato juice. Add seasoning and then add the gelatine which has been soaked for 15 minutes in 3-4 cupful water. Pour into high oblong molds and chill. When ready to serve arrange on lettuce leaves. Slice three cucumbers with round notched cutter; take out the centers and put a stuffed olive in each. Decorate the salad with these and salad dressing.

Two cupfuls mashed potatoes, 1-2 cupfuls shredded codfish, 1 tablespoonful crisco melted, 1-8 teaspoonful pepper, 1 egg.

Put codfish in wire strainer, let cold water run through and squeeze dry. Mix the hot unseasoned potatoes with codfish. To this add the melted crisco, beaten egg and pepper. Beat well, shape in balls and fry in deep oil, until a golden brown color.

Current Tea Ring. Two cakes Fleischmann's yeast, 1 cup milk, scalded and cooled, 1 cup lukewarm water, 1 tablespoonful sugar, 5 teaspoonfuls crisco, 1-2 cup sugar, 7 cups sifted flour, 1-2 teaspoonful salt, 1-2 teaspoonful mace.

SIDEWALK SKETCHES

THE HEART.

By Howard L. Rann.

THE heart is a small, uncanny object which has a way of making love with. Sometimes it becomes so uneasy that a man will make love to four or five different females and have his heart action retarded with a breath of promise suit.

The heart is usually worn just inside the vest, where it can blush unseen and collect terms of affection which are never used after the wedding breakfast. A heart is said to be won on the sleeve where it can be seen at a distance of two blocks right through the suit of clothes, a hand-painted necktie, 60 cents' worth of chocolate cream and a depreciable look. Some men can wear the heart in this attitude during the courtship without the slightest discomfort, but after marriage they throw it up so close to their collar that it doesn't squeeze past without a shriek of agony.

The heart is used to produce a great many things, such as breath, the home tobacco cure, love at first sight and a very bad heart will sometimes prevent a man from smoking more than thirty-two long black cigars a day, but it will not keep him from falling in love on an average of four times a year, summer vacation.

The married man's heart is never allowed to get off a dog trot, and the only thing that can excite it is to have his wife spend a quarter of beefsteak when the established and lawful course is fifteen cents.

Modern business gets along very well without any heart, as it consists mostly of stomach. If it were not for the heart, however, we should have no hospitals, pension rolls, pound supper, or gentle-voiced neighbors trooping in with kind words and current jelly.

When a man loses his heart, he can usually substitute 5 per cent compound interest for it with satisfactory results, but when a woman loses hers she doesn't get it back by the pink tea route and a fudge diet.

GINSENG THIEVES ROB JUDGE GRIMM

Marauders Prove Lack of Respect for Law's Majesty When They Despoil Patch of Herbs at Jefferson.

Demonstrating utter lack of respect for the majesty of the law or for persons representing the same, thieves have despoiled the ginseng patch owned by Judge George Grimm at his home at Jefferson and have taken

some \$70 or \$80 worth of the herb. The marauders made their first visit to the ginseng beds last Saturday night and escaped with a large quantity of the valuable roots.

Officer Frank Lanphear of the Beloit police force was summoned to Jefferson yesterday and an effort was made to track the thief. The trail was rather weak after the lapse of so long a time and the result was uncertain. Officer Lanphear attracted considerable attention as he went the length of Milwaukee street yesterday afternoon with the big dog straining at his harness.

HEALTH HINTS

Sodium Phosphate is a liver stimulant. It increases the flow of bile which is necessary to the proper digestion of food. Bile also stimulates bowel action. A good many forms of indigestion and constipation are promptly relieved by a few doses of Effervescent Sodium Phosphate taken before breakfast each morning. Jaundice or yellow skin, headaches, dizziness, sour stomach, and other complaints can be traced to the liver. Stimulate the liver and the trouble is gone. Sodium Phosphate that has always been sold at 50c a bottle for a few days we will sell at 25c a bottle. Get it today. Give it a trial. You will be much pleased.
 Mr. Fleming, our graduate pharmacist and chemist, can give you any other information you wish about this or any other remedy. Badger Drug Co., Milwaukee and River Sts., the drug store that makes a specialty of drugs.

FORTY YEARS AGO

Janesville Daily Gazette, August 13, 1873.—(L. T. U.): The rooms of the Y. M. C. A. were crowded to overflowing yesterday afternoon with the earnest Janesville people who had come to band themselves together for organized and permanent labor in the cause of temperance. The meeting was called to order by Mrs. D. A. Beale, president, who read a selection from the scriptures and led in prayer. The committee was chosen to draft a constitution and by-laws for the organization and will report the efforts of their work at the next meeting. The organization shall be known as the Ladies' Temperance Union of Janesville, and its object shall be the promotion of the cause of temperance by all proper means, and will endeavor to secure the passage of such laws that will prove a hindrance of liquor traffic.

Lost Boy: The parents of Ernest Carley, residing in the First ward, were agitated and alarmed last night by the disappearance of their six-year-old son. They were out all last night searching for the lost one and this forenoon, just as they reached the unwilling conclusion that he had drowned in the river, the young hopeful arrived bringing the information that he had been merely in the country to spend the night.

The old well known Russ House has taken unto itself an addition in the shape of a three story, Milwaukee brick upright, with an attractive front, has been re-named and will hereafter be known as the Davis House. The new structure gives a handsome and great improvement to the appearance of the city.

GENERAL WHO LED ALLIES TO BRILLIANT VICTORIES MAY BE COURT-MARTIALED

General Savoff, the brilliant commander of the Bulgarian army who accomplished the difficult task of driving the Turks from Europe, is blamed for the present unlooked-for losses of the Bulgarians. He has been disgraced and discarded and may be court-martialed for the defeat of the army which but a little while ago he led to such wonderful victories.

The accompanying picture of General Savoff and his beautiful daughter has just reached this country.

General Savoff and his daughter.

Michigan in Summer

Is termed the ideal vacation land and it would seem as if this were true, judging from the beautiful pictures of woods and streams illustrated in the booklet of the above title.
